## SUMMARY

I'm a passionate full-stack developer with a keen eye for UI/UX design. I'm skilled in a range of technologies, including JavaScript, React, Angular, Node.js, and more, enabling me to create exceptional web experiences from start to finish. My strengths lie in user-centered design, problem-solving, and collaboration. I'm always eager to learn and expand my skill set, and I'm excited to connect with other developers and build amazing web solutions together.

## SKILLS

- ❖ Frontend: JavaScript, React , Angular.
- ❖ Backend: Node.js, Java, C Programming.
